

***Aware of the importance of protecting the environment, all INTEROR staff are committed on a daily basis:***

- *To strictly comply with all of our regulatory environmental requirements.*
- *To systematically assess the impact of our activities on the environment and to guide the development choices of our manufacturing processes towards more environmentally friendly solutions.*
- *To reduce our environmental impact by implementing the best available techniques not entailing excessive costs.*
- *To promote environmental initiatives and good practices within our organization.*
- *To monitor and communicate openly our environmental performances.*

***Consumption of water, energy, material, waste generation, emissions, everything must be constantly reviewed and improved in order to guarantee the sustainability of our production for future generations***
